

BC Technology for Learning Society

You Donate I.T. | Youth Refurbish I.T. | BC Reuses I.T.

About Us

BC Technology for Learning Society (BC Tech) collects donated computers, laptops, and other tech; hires and trains youth to refurbish the computers; and distributes the computers and laptops to BC schools, libraries, not-for-profit organizations, and Indigenous communities. BC Tech is a registered charity licensed to operate the Computers for Schools Plus program in BC.

Our mission: To provide job training for youth and access to refurbished technology for British Columbians.

- Over 200,000 computers distributed across BC to date
- Currently delivering 5 different programs, including *TELUS Internet for Good* and the Government of Canada's *Connecting Families* Initiative.
- Supported over 300 interns with their first work experience

Partnerships/Collaborations

Innovation, Science and
Economic Development Canada

ISED

Innovation, Science and Economic Development Canada licenses and funds the Computers for Schools Plus Program across the nation. We are extremely appreciative for the tremendous support we receive.

CFSC-OPEC

CFSC-OPEC's hub of services to the CFS+ program include marketing and communications, partnership development, project management, and strategic planning.

TELUS

We partnered with TELUS in 2016 for their Internet for Good initiative. TELUS provides low-cost internet, while we offer affordable refurbished computers and laptops to families.

Testimonials

“We are very thankful to your organization for providing us with the devices as it has helped us provide them to low-income newcomer students and parents who can’t afford them, especially during these present times.”

— Surrey Schools Welcome Centre
